

FOR IMMEDIATE RELEASE: Eclectic Los Angeles-based Indie ensemble **Garretson & Gorodetsky** to release gritty new single "Marriage."

With their new single "Marriage," **Garretson & Gorodetsky** adds bluesy grit to their Indie/Underground sound, resulting in a boisterous and uplifting ride.

Featuring singer **Weba Garretson (The Eastside Sinfonietta,)** guitarist **Ralph Gorodetsky (Universal Congress Of,)** multi-instrumentalist **Vince Meghrouni (Mike Watt, The BellRays)** on blues harp, bassist **Laura Grissom (Tune To Me)** and drummer **Brian Christopherson (Saccharine Trust,)** Garretson & Gorodetsky's upbeat, blueswailing new single "Marriage" is the follow-up to "Weight Of The World" which recently reached the Top Ten at numerous radio outlets worldwide. Like "Weight Of The World," "Marriage" was recorded at the renowned Hollywood studio **Gold-Diggers Sound** with producer/engineer **Ed McEntee (Jon Spencer Blues Explosion, Yoko Ono)** and producer/mixer **Mark Wheaton (Nels Cline, Ann Magnuson.)**

The group has been writing and performing new material over the past year, creating songs that contain angular elements of blues, soul and chamber pop. "Marriage" is the second of several singles that the group plans to release this year.

In describing the subject of the song, Weba says *"Marriage' isn't about the bonds of matrimony but the liberation of being surprised by oneself and one's partner."* "Sonny Boy

Williamson and Laura Nyro had a baby" is how co-writer Ralph describes the song musically.

"Marriage" will be released to digital music services on May 3, 2024 (it arrives at radio on April 23.)

Links to audio and EPK are below, please let us know if you'd like more information regarding this release or might be interested in an interview with Weba and Ralph.

For those of you with radio shows or podcasts, Garretson & Gorodetsky is pronounced "GARE-et-son and gore-oh-DET-skee" but if it's an issue, they don't mind being referred to as "G2."

Thank you for listening,

Tres Melo Musique Promotion
